SAFAR ACADEMY SYLLABUS

SYLLABUS OVERVIEW

- Safar Publications has developed and honed its curriculum over the last 20 years. The curriculum is structured into four distinct syllabuses, all aimed at giving learners a firm foundation in their Quranic reading and understanding, Islamic knowledge, spiritual development and in grasping the Arabic language. Our curriculum includes Qāidah, Tajwid, Juz Amma (Learn to Read Series), Duas and Surahs (Learn by Heart Series), Islamic Studies (Learn about Islam Series) and Arabic (Learn Arabic Series) related publications. All our publications contain many innovative features and interconnections, to ensure students learn in an engaging, steady and coherent fashion.
- Our publications are based on traditional Islamic sources and understanding and are also shaped by effective educational theories and practices. Most importantly, they are a result of practical feedback from students and teachers across the world, including our very own staff and students at Safar Academy. One of our core values is seeking perfection and quality; because of this, our curriculum and comprehensive support services are continually improved and refined, ensuring that we stay ahead of the curve and meet the needs of learners and educators in today's ever-changing world.
